

Electric Wire Rope Hoist for All Industries

Engineered for Safety, Efficiency & Durability

ZE Electric Wire Rope Hoist

Warehouses | Compact Spaces

 **Capacity: 2-20t** **Lifting Height: 6-18m**

- Smooth and low-noise operation
- Compact structure and lightweight
- Standard configuration: limit switch /overload protection / aviation plug

ZE Wire Rope Hoist Trolley

Ports | Foundries | Heavy Logistics

 **Capacity: 5-50t** **Lifting Height: 6-18m**

- IP55/H-class insulation
- Travel Speed: 2-20m/min
- Reliable performance for heavy-duty logistics

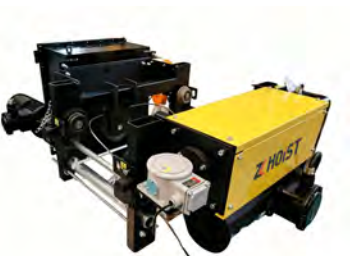

Ultra-Low Headroom Electric Hoist

Low-Clearance Factories | Automotive Workshops | Warehouses

 **Capacity: Customizable** **Lifting Height: 6-18m**

- 20% lower overall height vs. the ZE model – ideal for low-clearance applications
- Thickened high-strength steel frame for superior rigidity and long-term durability
- Low center of gravity for increased stability and balanced load performance

Explosion Proof Wire Rope Electric Hoist

Oil & Gas | Chemical Plants | Offshore | Mining

 **Capacity: Customizable** **Lifting Height: 6-18m**

- Equipped with dedicated explosion-proof motor
- Compact design with optimized structure
- VFD control for precise lifting & traveling
- Smooth, stable and reliable performance
- Built for hazardous and explosive environments

Wire Rope Hoists for All Industries

Engineered for Safety, Efficiency & Durability

CD Electric Wire Rope Hoist

General Industry | Warehousing | Compact Spaces

 Capacity: 0.5–16t Lifting Height: 6–30m

- IP44 protection
- Compact design for space-saving installation
- Reliable performance with low maintenance

MD Electric Wire Rope Hoist

Precision Assembly | Fragile Loads | Harsh Setting

 Capacity: 0.5–16t Lifting Height: 6–30m

- Micro-speed control (1:10 ratio) for less swing
- Excellent cooling design for high frequency operation
- Insulation upgrade to Class F/H available

Explosion-Proof Hoist

Coal Mines | Petrochemical Plants | Hazardous Areas

 Class: Explosion-Proof Certified Protection: IP55 / IP65

- Explosion-proof design & spark-resistant materials & sealed electrical system
- Compact structure & safe, reliable operation & advanced safety construction

Fixed-Type Electric Wire Rope Hoist

Factory | Workshops | Warehousing

-  Mounting: Fixed Type Installation: Flexible
- Compact structure for easy installation
 - Reliable operation with low maintenance

Wire Rope Hoist for Beam Systems

Box Girders | H-Beams | Crane Systems

-  Mounting: Beam-Mounted
- Smooth travel with guide wheel support
 - Adaptable to various girder configurations

Galvanized Hoist

Outdoor Use | Corrosive Environments

-  Finish: Galvanized Protection: IP54 / IP55
- Industrial-grade corrosion protection
 - Customizable insulation classes
 - Suitable for arc-shaped tracks

Sluice Gate Hoist

Dams | Sluice Gates | Ship Locks

-  Design: Waterproof Protection: IP54 / IP55
- Waterproof, moisture-proof, corrosion-resistant
 - High load, stable speed, compact

Chain Hoist: Widely Used in All Industries

Thickened upgrade – Strong and durable – Stable and safe

ZC Electric Chain Hoist with Trolley

Factory | Workshops | Warehousing

 **Capacity: 0.5t-5t** **Lifting Height: up to 6m**

- Die-cast aluminum alloy housing, lightweight
- G80 high-strength chain
- Limit switch included

HHBB-Type

ZKE-Type

ZKKN-Type

ZC Electric Chain Hoist-Hook Mounted

Factory | Workshops | Warehousing

 **Capacity: 0.5t-5t** **Lifting Height: up to 6m**

- Die-cast aluminum alloy housing; lightweight
- G80 high-strength chain
- Limit switch included

HHBB-Type

ZKE-Type

ZKKN-Type

Fixed-Type Electric Chain Hoist

Manufacturing | Warehousing | Workshops

 **Capacity: 0.5t-5t** **Lifting Height: up to 6m**

- Can be hung on an H-beam with suspension device
- Die-cast aluminum alloy housing

ZH Manual Chain Hoist

Factory | Workshops | Warehousing

 **Capacity: 0.5t-5t** **Lifting Height: 3/4m**

- One-piece thickened collision cover
- Double pawl, double guide wheel structure
